

Talk to your radio System from Anywhere in the World

Connect a Cell Phone to your Radio System. The RadioPro Talk™ App allows remote access to your Motorola MOTOTRBO or Kenwood NEXEDGE 2-way radio system from Android or iOS (iPhone and iPad) mobile devices. RadioPro Talk™ mobile app is useful over cellular networks when you are on-the-go and outside the coverage of your radio system, yet still need radio communications. RadioPro Talk™ software is the simplest, most reliable, and most cost effective PTT solution for 2-way radio systems on the market.

RadioPro Talk installed on Android and Apple iOS cell phones

Aina PTT Bluetooth device

The RadioPro Talk™ App includes the following:

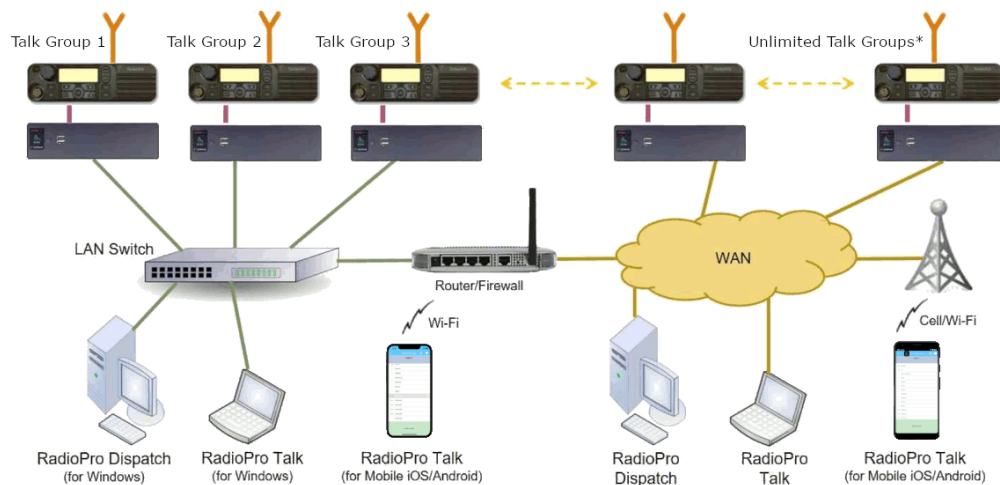

- **Bluetooth PTT Integration:**
Aina PTT Bluetooth speaker-microphone
- **Text Messaging**
- **GPS mapping**
Radio subscribers
Mobile app users
- **Phone-to-phone Private Calling**
- **Background Mode (Android Only)**
- **Mobile app users listed in Contact List**
- **Zone & Channel Selection**
- **Call Alert and Radio Check**
- **Audio Playback**
Replay up to 5 previous transmissions
- **Speaker and Microphone Audio**
Set speaker and microphone audio levels
Automatic Gain Controls
Noise reduction (Android Only)

Try it! Download the RadioPro Talk™ mobile app from the Apple App Store or the Google Play Store. Just search for “radiopro talk”. The app is already configured to allow communication on our demo radio system.

RadioPro Talk™ Mobile Application

RadioPro™ System

As shown in the diagram below, a RadioPro™ system may have a mixture of client types; Dispatch, Talk, and Mobile. The IP Gateways interface the radio system to an IP network, ensuring easy wide-area deployment without purchasing and configuring server PCs.

* Max 80 Clients connected to 1 Gateway. Max 70 Gateways connected to 1 Dispatch Client.
