

Solutions for Better Communications

RadioPro™ products provide best-in-class Radio-over-IP for digital and analog two-way radio systems to allow communications to these radio systems from anywhere in the world. RadioPro products combine flexibility to solve any connectivity challenge, ease of system deployment, and cost savings over other solutions.

Solutions are available for a wide variety of hardware platforms, including Windows® PCs and notebooks, as well as iOS and Android devices.

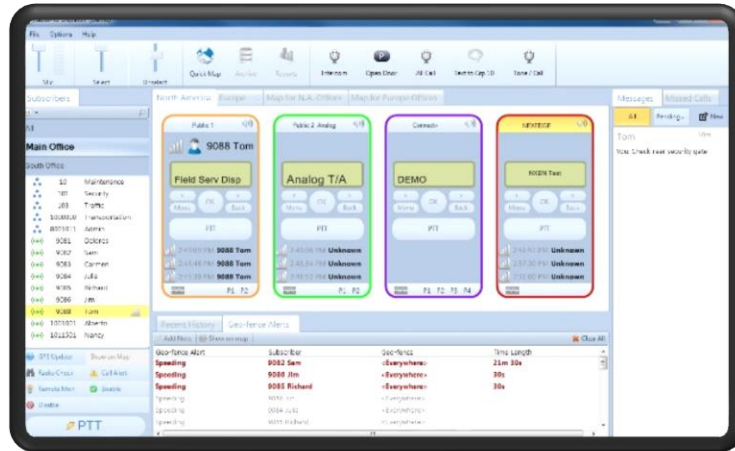

RadioPro Dispatch™ Software

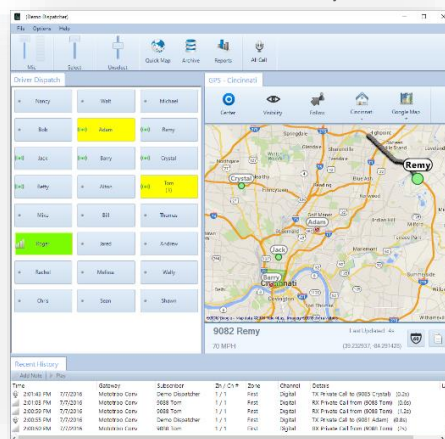

Computer Aided Dispatch over IP

RadioPro Dispatch™ software is a software console for Windows® operating systems and optimized for Motorola MOTOTRBO™ or Kenwood NEXEDGE® radio systems. RadioPro Dispatch is the most feature-rich dispatch console product for 2-way radio systems, with the following elements:

- **Voice Dispatching** with:
40 simultaneous Talk Groups, Cross-Muting, Patching, Multi-Select with Select/Unselect Audio, Custom Action Buttons (for All-Call, All-Text, and All-Emergency), new Subscriber Grid Layout
- **History Logging** with Voice Playback and GPS Locations
- **GPS Mapping (AVL)** with:
Place Markers, Named Areas, Street View, Multiple Maps, Show/Hide Subscribers, Zoom to Visible Subscribers, Geo-fences, Off-line Maps, Location Presets, Image Overlays
- **Text Messaging**

New Subscriber Grid Layout

RadioPro Solo™ software

RadioPro Solo software provides a virtual radio on your Windows® desktop or Notebook while focusing on simplicity for the user. It allows remote access to Motorola MOTOTRBO radios via IP so that users can stay in “radio” contact. Features include:

- Talk and Listen on any Windows® PC
- Group and Private Calls
- Text Messaging
- Cross-muting
- Voice and event logging for previous 24 hours
- Full Radio Control

RadioPro Talk™ software for PC

RadioPro Talk software takes simplicity to another level for those PC and notebook users who do not require access to all of the features of a control station radio. This GUI can be used with Motorola MOTOTRBO or Kenwood NEXEDGE. Features include:

- Talk and Listen on any Windows® PC
- Group and Private Calls
- Text Messaging
- Cross-muting
- Voice and event logging for previous 24 hours

RadioPro Talk™ software for Mobile Devices

RadioPro Talk software for Mobile devices allows remote access to your Motorola MOTOTRBO or Kenwood NEXEDGE 2-way radio system from Android or iOS (iPhone and iPad) mobile devices. Features include:

- PTT and Listen:
- Fast switching between talk groups
- Text Messaging
- Zone & Channel Selection
- Call Playback
- GPS mapping of radio subscribers & Mobile app users
- Call Alert and Radio Check
- Extended run-time while in background
