

RadioPro Talk (mobile)

Talk to your radio System from Anywhere in the World

RadioPro Talk for Mobile devices allows remote access to your Motorola MOTOTRBO or Kenwood NEXEDGE 2-way radio system from Android or iOS (iPhone and iPad) mobile devices. RadioPro Talk is useful over cellular networks when you are on-the-go and outside the coverage of your radio system, yet still need radio communications. RadioPro Talk is the simplest, most reliable, and most cost effective PTT solution for 2-way radio systems on the market.

RadioPro Talk for Mobile devices includes the following:

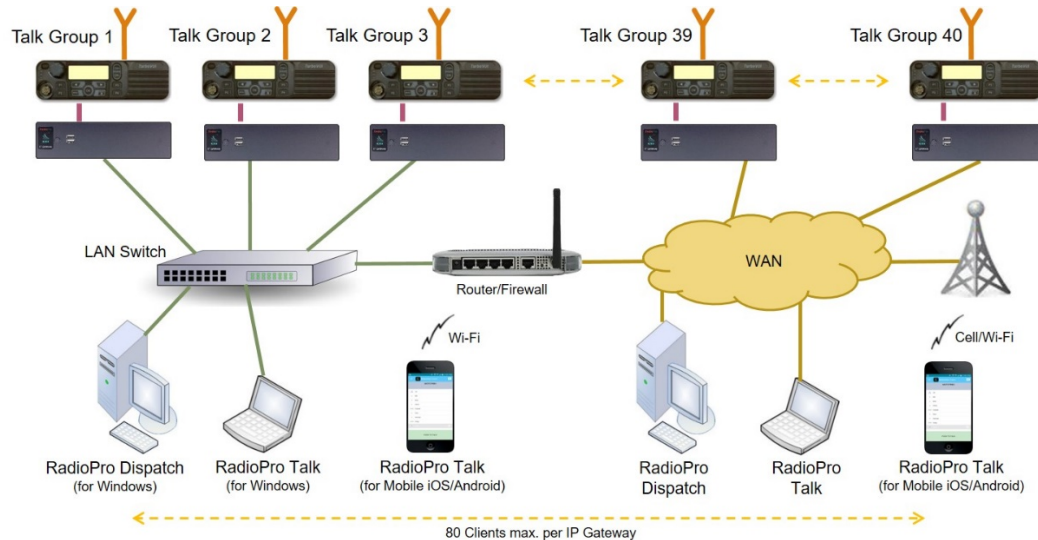

- **PTT and Listen:**
Clear communications using cell or Wi-Fi
- **Fast switching between talk groups**
Choose a talk group or channel from the on-screen list
- **Text Messaging**
- **Zone & Channel Selection**
- **Call Playback**
- **GPS mapping of radio subscribers**
- **Call Alert and Radio Check**
- **Extended run-time while in background**
(New!)
- **Mobile app users listed in Contact List**
(New!)
- **Phone-to-phone Private Calling**
More efficient use of channel
(New!)
- **GPS mapping of Mobile app users**
(New!)

Try it! Download the RadioPro Talk app from the Apple App Store or the Google Play Store. Just search for "radiopro talk". The app is already configured to allow communication on our demo radio system.

RadioPro Talk (mobile)

RadioPro System

As shown in the diagram below, a RadioPro system may have a mixture of client types; Dispatch, Talk, and Mobile. The IP Gateways interface the radio system to an IP network, ensuring easy wide-area deployment without purchasing and configuring server PCs.
